

On It's Supernatural: This Ukrainian Jewish concert pianist was an atheist until a supernatural light entered his bedroom. Now when he plays God shows up and people are healed of many incurable physical and emotional illnesses.

Can ancient secrets of the supernatural be rediscovered? Do angels exist? Is there life after death? Are healing miracles real? Can you get supernatural help from another dimension? Has the future been written in advance? Sid Roth has spent 30 years researching the strange world of the supernatural. Join Sid on this edition of It's Supernatural.

SID: Hello. Sid Roth. Welcome to my world where it's naturally supernatural. **My guest, Alyosha Ryabinov,** has been a guest previously. Last time he was on the show, Alyosha, I've never gotten reports like this before, but we actually had someone blind get their eye sight.

ALYOSHA: Yeah, that's correct.

SID: That's pretty incredible. I mean, you're so mellow. I mean, got their eye sight! Blind!

ALYOSHA: Very exciting. The person is driving today.

SID: For those that aren't familiar with you, Alyosha is Jewish, born in Kiev. Alyosha at what, about age six, because you come from a long line of musicians, you started studying the piano and got to the point where as you got older, how many hours a day did you practice?

ALYOSHA: About six to eight.

SID: How did you do that?

ALYOSHA: Well I had a grandmother that was cracking.

SID: And as far as you had no understanding of your Jewishness, but you did take a college course on atheism and that taught you the opposite.

ALYOSHA: Well the only thing I knew about being Jewish that I born to a Jewish family, ethnically. But in college and in school we were required to study atheism. And it's interesting because when people ask me, where did you learn about God in the first place, I would say the first people that taught me about God were atheist. They have to explain to you who doesn't exist.

SID: You got a point there. And so you reached a point as you were getting higher education you saw that there was fewer and fewer opportunities in those years for a Jewish person, and so you wanted to go to the U.S. It was near impossible and you decided to pray to this God you learned about from your course on atheism.

ALYOSHA: That's correct. I wanted to pray to God because I knew no one could help me. And I didn't know God existed but I wanted to try Him. So I went to pray to God, ended up in church. I knew nothing about church either. But I saw this image of Jesus there and I said, well some

people call him God. So I said to him, “Jesus, if you’re God make it possible for us to leave.” And then I left the church, and maybe a week or two passed and we received permission to leave, immigrate.

SID: Did you attribute that God answered your prayer or what did you think really?

ALYOSHA: Not right away, but I began to think about it.

SID: Okay, you get to the U.S. You investigate your Jewish identity and your sister has an experience, who is also Jewish, has an experience with Jesus. And what did you think about that?

ALYOSHA: Well first I wondered if it’s all right for a Jew to believe, but then I wasn’t educated at all. And my sister brought a lot of literature home, which I began to read and I began to be impressed, you know, with what I read.

SID: And of course, the Bible says a Jewish requires a sign, so Alyosha asked for a sign. What happened?

ALYOSHA: Yeah. I was in my bedroom. It was dark. The sun didn’t come up yet. And suddenly, the bright light came into the room. It was astounding. It stood there for a few moments. I knew it was proof.

SID: Could it have been a streetlight?

ALYOSHA: No. I actually got up to see if a car passed, but there was no noise. There was no sun, nothing. I now believe that there was a supernatural site about God, because Scripture says God is light and God wanted to present Himself to me.

SID: Okay. And then your sister starts a Bible right in your home. You attend the teacher says to you, “Do you want to make Jesus your Messiah and Lord?” And of course, you were ready to say no, but what happened?

ALYOSHA: I was gonna say no, but instead to my own surprise came out yes.

SID: Why? You’re too logical, Alyosha.

ALYOSHA: I am, but I guess the power of God supersedes the logic. I have to think about it for a while. Why did I say yes?

SID: And then for a season you put down the piano. Even though you won all these competitions in Kiev in Ukraine. Why did you put music down?

ALYOSHA: I felt it was a lot of work, a lot of practice that I had to do in order to just do a two-hour concert. It didn’t seem rewarding to me. And God started to change something in my heart. I really wanted to pursue Him. So I laid music on the altar for a few years.

SID: And you went to Bible college and met a Jewish believer who you married, Jody.

ALYOSHA: Yes.

SID: And you went to Israel and you had a few miracles when the two of you went to Israel.

ALYOSHA: Oh that's correct. I've seen several miracles. I saw healings. A boy got healed of epilepsy. But at the same time, it was in Israel when God began to, God filled me with the spirit, with His spirit in Israel, and I began to have a desire to create music for God's glory.

SID: And he had an encounter with the love of God that moved his music from the realm of top professional to filled with the presence and spirit, and miracle-working power of God. Don't go away. We'll here Alyosha play the piano next segment. Be right back.

We'll be right back to It's Supernatural.

We now return to It's Supernatural.

SID: Hello. **Sid Roth here with Alyosha and Jody Ryabinov.** And Alyosha, the Messiah says constantly, "Speak out loud." And there's something so powerful about the spoken Word of God. Why is sound so important to God?

ALYOSHA: First of all, God created the whole world with the sound of His voice. But also on the physical realm, the light and music, light and sound is the same physical reality. It just operates on different frequencies. So the scripture says in 1 John, "God is Light." That means that God is music. God is sound and He penetrates everything that's in this universe. There's no place where He is not. So I believe everything is made out of sound, everything.

SID: What about the frequencies and the vibrations. Explain that.

ALYOSHA: Well frequencies began in the second verse of first chapter of Genesis, where it said, "The Spirit of God was hovering over the face of the waters." When you take that word, [Hebrew] and bring it to the root, [Hebrew] at the root level, the meaning of the word is "to shake and vibrate." So as there was darkness, everything was without form, and the first application to the problem with the work of the spirit, when God set up his frequencies and then God began to speak and He said, "Let there be light."

SID: What is the highest frequency?

ALYOSHA: I believe the highest frequency is God himself. And God is love, so love is the highest frequency.

SID: And that's why the Messiah talks so much when miracles happen you read about the compassion of the Messiah, the love being poured out into an individual. Jody, you've done

research on the Hebrew language, and get this, when you get the Word of God, when you get the Hebrew language together and when you get love together, you're moving in the highest anointing of Heaven and Earth, and under the earth. It will literally change the molecules. It will literally cause a mountain to move. What have you found out about the Hebrew language? It really is a supernatural language.

JODY: It is totally supernatural, Sid. We discovered a man by the name of Hans Jenny who was a Swiss scientist, and he was doing research back, oh maybe 20, 30 years ago. And he took different languages and he actually developed a machine called the tonoscope. And through this machine he would put different languages and to see how the sound would affect matter from different languages. There were only two languages at that time that he discovered that had an impact on matter, on molecules. He took sand, water, different mediums, and he found that one language that is still in existence today, which is Hebrew, had an impact on that matter. Actually, when the words would be spoken, according to his writings and his research, that actually the [Hebrew] or the valve points would actually be imprinted right into the sand.

SID: That is really supernatural.

JODY: That is supernatural. So we found that, you know, out of all the languages, we really want to use Hebrew more. We want to understand Hebrew. I believe that God spoke the world into existence and He must understand Hebrew. It's the whole first part of our scriptures are in Hebrew.

SID: Well, you know, many people speculate since Hebrew is one of the purest languages that was ever written, that in Heaven the language that we'll be speaking will be Hebrew. What do you think about that?

JODY: I think that's right. We're gonna start studying now. How's that?

ALYOSHA: Can I say something? See the very first word that God spoke in Hebrew, which translated, "Let there be light," in Hebrew he said, [Hebrew] and He would listen to this the sound of breath [Hebrew]. I think he spoke universal existence in Hebrew with Hebrew sounds. That's my opinion.

SID: Well you're entitled to your opinion, but it sure makes a lot of sense to me. I want you to hear right now Alyosha. Now he is a master concert pianist. I mean, he studied. He's paid the price. But he had an experience that we'll be talking about in the next segment that totally revolutionized his life. He moves in synch in supernatural love as he plays the piano. And when you hear the Word of God and when you hear it in Hebrew, and when you hear that highest frequency of love coming through the piano, get ready to have every molecule in your body change. Alyosha from his CD, "The Lord is My Healer."

ALYOSHA: [piano music]
[Hebrew]

We now return to It's Supernatural.

SID: Hello. Sid Roth here with Alyosha and Jody Ryabinov. And we were talking during the break about fear. Alyosha, what does the Bible say is the solution for people that are so fearful?

ALYOSHA: Well the scripture says that perfect love casts out all fear. So the solution is to learn to experience God's love.

SID: And Jody, from your research on fear what does this do to the body, the physical body?

JODY: Fear is probably, Sid, one of the most major things that impact the human body today. Fear, sadness, but fear would be on the top definitely. What happens is we have a center in the brain called the amygdale that senses and perceives fear, sends then a signal to the rest of the body. The cells, the glands, the organs all pick it up. You have blood pressure problems. You have all kinds of issues with just fear alone. We can just sit all day and name them But what happens is, is that there only way to dismantle that fear that we know of. And that we know that perfect love casts out fear. It's something that we must come in to a place of deep security with the Lord.

SID: And you know what? This love, most people understand the definition of love as an action. But Alyosha experienced God's love as a emotional experience that revolutionized his life. Alyosha, tell me about that big man that was hunting for you to hug you.

ALYOSHA: Until I met that big man, the love of God was a theological concept for me. I didn't feel really close to God. I knew that He loved me. But I went to that school that Jack Frost started and it was one month long. And there was this man there. He didn't teach much, but he was very kind and he was big, and he would sneak behind you, and he would just grab you and you catch you into his arms, and he would begin to bless you. And he did it to me and I was startled, and I said, "Wait a minute. I'm not used to being so close to a man." So I tried to escape. But he was big and strong, and I was small, and I couldn't do it. I was stuck and I was pinned against his bosom. And he began to bless me. And he would say, "Father, I pray that he would release all the love that he missed growing up." And suddenly, I felt like my father blessed me, like my Heavenly Father blessed me, but also my earthly father blessed me. You see, my father died when I was five years old, so I don't remember blessings from him. And now I had a blessing from the Father. And it's amazing because I believe that the bosom of the Father was imparted into me. And Scripture says that Jesus came from the bosom of the Father. And he said that, "I know where I came from and I know where I'm going to," a very powerful place. And the other thing that I felt these arms that were holding me, there is a supernatural hug in the Book of Deuteronomy, and it says, "Our God is our refuge, but underneath are everlasting arms." And there is a hug there imparts the supernatural arms of the Father.

SID: You wept for how long after that?

ALYOSHA: After that I cried for 25 days.

SID: And you weren't someone that cries easily.

ALYOSHA: No.

SID: You're very stoic.

ALYOSHA: Men don't cry. Men don't show emotions. But see, our Father is very emotional. As a matter of fact, the fruit of the spirit, those are the emotions of God.

SID: How would you like the love of God to fill you with what you've missed because you had imperfect parents? How would you like God himself to put His arms around you and hug you? Alyosha, I believe that you could pray and just extend your arms in the spirit and people's lives would be as transformed as yours was.

ALYOSHA: I just want to put my arms around you and the Father wants to speak to you. And the Father would say to you, "My son, my daughter, I just want you to know how much you are loved and I want to fill every part of you that is longing for my presence. I want to release all the love that you missed growing up and I want to bless you, and I want to release the blessing that I gave to Abraham, Isaac and Jacob that is now part of your inheritance, and I want to tell you that you belong to me, you belong in my family, you belong in my kingdom, and you will never be a second class. I bless you with all my love. And I want heal you, your whole being, in Yeshua's name.

SID: Oh, I don't know about the two of you. No, I do know about the two of you. There is a release of such shalom. That's the only word I can come with. Such peace that I believe that when you hear Alyosha play the piano, and Alyosha, if you would go to the piano right now I want him to play a selection from "Fear Not". And as that prayer imparted something very special to you, imparted the love of God to you, and I believe as you hear Alyosha impart more the love of God through the music, the Word of God, and in English and in Hebrew, that as he does this I believe from the top of your head to the bottom of your toes your very selves will change. The life of God will just manifest, and there is nothing evil, no sickness that can stand against the love of God. Alyosha from "Fear Not".

ALYOSHA: [piano music]

[Hebrew]

[English translation] I will both lie down in peace and sleep. For you alone, oh Lord, make me dwell in safety. I have set the Lord always before me. Because He is at my right hand I shall not be moved. The Word also will be a refuge for the oppressed, a refuge in times of trouble. And those who know Your name will put their trust in You. For You, Lord, have not forsake those who seek You. Have you not known? Have you not heard? The everlasting God, the Lord, the Creator of the ends of the earth neither faints nor is weary. His understanding is unsearchable. He gives power to the weak and to those who have no might He increases strength.
