

SID: My guest sees a series of snapshots over people and then he knows things about them. He knows their past, their present, their future, even what they said in their bedroom the night before. He's so specific that he's often accused of collaborating with others to get this supernatural information.

*Can ancient secrets of the supernatural be rediscovered? Do angels exist? Is there life after death? Are healing miracles real? Can you get supernatural help from another dimension? Has the future been written in advance? Sid Roth has spent 30 years researching the strange world of the supernatural. **Join Sid on this edition of It's Supernatural.***

SID: Hello. **Sid Roth here.** Welcome to my world where it's naturally supernatural. **My guest is Denny Cramer.** And Denny, you know this. I am so intrigued with the gift that God has given you. He has prophesied over thousands of people for, what, some 33 years, and I had him prophesy over my staff last night and it's, I don't know, you've been doing it for so long. But I'm in awe of such a supernatural gift and the way it helps people. For instance, I have got a letter here from someone that he prophesied over. Let me just read a little bit of this. "You visited our congregation. I listened as you prophesied over many people I knew. It was amazing to me how accurate you were in speaking to their current circumstances and declaring over them their God-given potential, having never met them." As a matter of fact, a lot of pastors are probably accused of telling you information because you're so precise and so accurate. I imagine there are people that you probably couldn't convince in a million years that you were tipped off by the pastor.

DENNY: Not in a million years.

SID: Let me keep reading this. "At the time of your visit I was in therapy at least twice a week due to post-traumatic stress disorder. I had been struggling with thoughts of suicide and depression, as well as a number of physical issues that were unresolved. The night before the service I woke up, yet again, at 3:15 a.m. and saw what I believe to be a big black bird that I knew must have been an evil spirit. The next day God spoke this to me through you." This is so awesome. Listen to this. "You've also been tormented at night. A spirit comes into your bedroom around 3:00 in the morning, 3:15 in the morning and it begins to attack you with nightmares and health issues, pressure, stress and strain that lasts all day. And the last nine and a half months you've been saying, 'I'm under attack.' And no matter what you do you can't get free. But the Lord says the breaker is here this morning. I am that breaker, Jesus, Jesus the Messiah, the Lord, and I snapped the neck of that spirit on assignment against you, and you will see a return of your physical health. Now every organ and every system will work as it was designed to work and you will sleep like a baby." Then this person reports, "I have not been woken up at that time since. My health is back completely and I've not struggled with nightmares or stress."

DENNY: Amazing.

SID: This has got to be, it's amazing. It's got to be so rewarding for you. Do you realize what it's like for someone that is tormented night after night? You knew the exact time that the

torment was going on. Does this happen often, people are sick, that you kind of, you know by your prophesy what the cause is and then you go after it?

DENNY: Absolutely. I go after it very aggressively. I know by the spirit of God whether it is just natural or whether there might even be a spiritual reason behind it, and I see it. I actually see these things on them, around them, in them. I know whether they came from their past. I know whether it's just a present situation. I discern the spirit behind these situations. And in the case of this young married couple, they could not conceive. She was unable to have a child.

SID: I mean you took care of everything.

DENNY: I read her mail. I mean, the Holy Spirit went right down the line. I call prophesy, Sid, both diagnostic and prescriptive, in that God uses prophesy to diagnose problems and then He uses prophesy to prescribe the solution. So this couple was confirmed in their ministry as youth leaders. I didn't know who they were, but God said, "Youth ministry, youth ministry, youth ministry." I then saw the spirit coming into their bedroom around 3:15 in the morning, which was exactly when she would wake up with nightmares and fear, and dread, and cold sweats. I prophesied her body was being healed. They could not conceive and have a child. So she was being treated for all these things. But the Lord used prophecy diagnostically to diagnose their problems. Then He used prophesy to prescribe the solution. They were healed. They were delivered and the biggest miracle of all is that nine months later, in spite of what the doctor said, they had their baby.

SID: I love it. And as a matter of fact he prophesies what happens to countries. For instance, you prophesied the Afghan war. You prophesied the Indonesian earthquake. You prophesied the terrorist bombing in England. But I think you really get a lot of satisfaction prophesying things that help and encourage, and edify people. But I want to find out about how this gift started operating in you. You became a believer because you went to a Jesus freak meeting. Why did you go to a Jesus freak meeting?

DENNY: I moved in next door to some Jesus people. Didn't know what they were, other than I had seen them on TV a little. And they gave me a Jesus paper, and the Jesus paper said the Jesus people are meeting Thursday night at such and such a location. I had an Irish Roman Catholic background. We went to church, went to Mass Sunday morning. That was it. But these Protestants, these Jesus people were having meetings Thursday night, which I thought was very bizarre. So I went in to a Jesus people meeting where these Jesus freaks or these Jesus people were having a meeting, and that's when the spirit of God began to deal with me.

SID: It's really funny. What did you think was going on with them when you looked at the younger people and the older people?

DENNY: Well having a bit of a drug background I thought they were all high. I mean, I legitimately went in and thought, well these young Jesus people with their guitars and their tambourines, and their long hair, and their jean jackets, they're all smiling, they're all happy. They must be high. But there was another segment of the church, the old Pentecostal folk,

probably 80, 85 years of age, long-sleeved white shirts and dark trousers and dark shoes, very religious, they were all happy. They were all smiling. So I said I don't understand this. How can the old people be high? I had never seen happy old people.

SID: Then someone speaks in a supernatural language, and then they interpreted it. And what did you think?

DENNY: Blew my mind. The guy was about ten feet away from me. He stood up and the whole church service sort of came to a stop and stands up and he gives this speech. To me, it was a speech in a language that I had never heard. And I went, oh, what was that about? Then to my left an old lady, an old lady, she stands up and she begins to speak in English. And I had never been exposed to this, but I knew that that lady was speaking in English what this man had just spoken in another language so that everyone in the room could get what God was saying. It was in fact tongues and interpretation to hear what Jesus had to say to us.

SID: To make a long story short, he is in the supernatural glory of God. He becomes a believer in the Messiah and then he's downloaded with these gifts. We'll pick up right here. Be right back.

We'll be right back to It's Supernatural.

We now return to It's Supernatural.

SID: Hello. **Sid Roth here with Denny Cramer.** So Denny, you get radically born from above. You have an encounter with the Messiah and you're going to a nice church, and all of a sudden you start getting very specific dreams. Tell me about the first one you remember.

DENNY: The first spiritual dream that I ever had I had been a believer for a couple of years, and went to be and had a dream. And in the dream there was a husband and a wife, a couple from our church, both of whom I knew, and in the dream this woman reports to me that she was having a physical problem, and it was sort of a personal private area of her body. But she said to me, "This part of my body is not working well." And I woke up. So I saw her the next night at church and I said, "By the way, Bonnie, I had a dream last night. Listen to this. In the dream you walked up to me and you said, 'Denny, this part of my body is not working well.' And I just want to tell you, Bonnie, that God wants to heal your body. Does that mean anything to you?" She said, "Last night," the same night I had the dream, "last night I went to my husband and said, 'That certain part of my body is not working, honey. I've got to go to the doctor.' It's the very conversation that I had with my husband the night before." And I said, "You're joking." She said, "Oh no."

SID: Now you were as shocked as she was.

DENNY: Absolutely.

SID: So once that started you knew that those dreams were not pizza.

DENNY: Correct.

SID: Those dreams were God speaking to you. But when did it start that you could just put your hand on someone and begin to see as you explained to me snapshots of what God's speaking past present and future?

DENNY: Well as much as a gift is given, as much as it is an endowment, it is also a skill, and skills need time to develop. So everyone's gift is going to start at a lower level, and through practice, practice, practice, become bigger and better. So I just began to practice. I began to have a dream and then another dream. I began to have visions. I began to know things and stuff about people. And as I gave those things that I felt God had given me for other people, the accuracy began to grow. Gifts are like muscles. The more you use them, the more you exercise and the bigger they become. So now after almost 34 years of doing this my gift has grown over the years through practice, practice, practice.

SID: Well let me take you back a few years. And this gift starts operating and you are told a certain young woman is going to be your wife. Tell me about that.

DENNY: Well I had learned--

SID: Excuse me. We have a word from our sponsor. God has just told me someone is healed that is watching us right now. If you will move your neck, just move your neck if you have pain. Don't bother doing it if you did. But move your neck if you had pain and you're fine, and you'll find that pain is gone. And if you had back pain just bend over and you'll see the pain is gone. And if you really want to, you have a hip problem, just run around the living room. Okay Denny, you're told about who will be your wife. What do you do with this information?

DENNY: Well as I said, God had given prophecies for other people. I was relatively comfortable about that. But I had never really had God speak to me about me in this manner. I had dated this young gal. In fact, I had one date with her, one date. That date was four months prior. So after having one date and not seeing her for four months I was simply praying about her one night. And her name was Diane. So I said, "Lord, I'm not really interested in dating this gal, beautiful as she is, unless it's your will." So I said, "I just want you to know that I'm praying about Diane." As soon as I spoke her name, words came out of Heaven in the form of a vertical teletype...duh-duh-duh-duh...right out Heaven, and they went into my head. I saw them. And the words said, "I'm going to give you Diane to be your wife." Well I thought that's all anyone would need to know including Diane. So I ran downstairs, called her up and said, "Hi, this is Denny Cramer." "Oh yes. Hi Denny." Now remember one date four months earlier. "How are you doing, Diane?" "Doing well." And I said, "I just thought I'd call you to let you know that I've been praying lately." "Oh," she said, "what have you been praying about?" And I said, "Well I've been praying about you." "Oh." And then I said, "And God spoke to me." "Oh," she said, "well what did God say?" And I said, "Well God said I'm going to give you Diane to be your wife." I fully expected her to say, "Yippee, halleluiah." In fact she said, and I quote, "But I don't even like you."

SID: Oh my goodness. That had to be really crushing.

DENNY: Crushing. I didn't know then what I know now, that God needed to speak to her as well as me. I waited on that word. Three or four months later we ran into each other again. Then a couple of weeks later we ran into each other again. We had a date. We had a cook-out. We had a hike. We hung out. And this was now August of '74. And I said on the 13th of August 1974, "I still feel that God spoke to me and I still feel that we're gonna get married. What do you think?" And she said, "Oh yeah, God spoke to me two weeks ago." We were engaged August 13th of 1974 and celebrated our 35th wedding anniversary this past November.

SID: You know, Denny, if that had happened to me and the woman, and I said, "God just told me you're supposed to marry me," and the woman had said, "I'm not interested in you," I think she said you're not even her type.

DENNY: Yeah.

SID: I would have been so crushed I might never have prophesied again.

DENNY: Oh I was crushed. I was devastated.

SID: How could you prophesy any more?

DENNY: I was crushed. I was devastated. But I had to learn a lesson, that the Bible says, "There is a time and a season for every purpose under Heaven." And it says that, "There is a due season for everything God says." I simply got ahead, way ahead of the due season. Right when it was the due season God spoke to my fiance, my wife, and we were then married.

SID: Well Denny wants to mentor you in the gift of prophesy. How many people can prophesy that are watching us right now?

DENNY: All born-again spiritual believers.

SID: Any exceptions?

DENNY: None.

SID: None. We'll be right back after this word.

We'll be right back to It's Supernatural.

We now return to It's Supernatural.

SID: Hello. **Sid Roth here with Denny Cramer.** And I love the fact that Denny's calling is to demystify prophesy so you all can prophesy. That's not original. That's right in the Bible. But demystifying it, Denny, tell me about the miracle at Mulberry.

DENNY: Just an outstanding example, Sid, of the power of prophecy. One man called prophecy "a miracle of utterance". Now we get excited about miracles in finances and miracles of feeling, and miracles of deliverance. Prophecy is a miracle, but just a miracle of utterance. I was speaking at a Methodist pastured by a spirit-filled guy at a Methodist church, a church full of Methodists, Sid. And I stood up to demonstrate the prophetic. He said, "Don't speak in tongues. It will freak them all out, but stand up and prophesy over our membership." So I stood up. A young married couple, they had never been in a prophetic meeting, didn't know what a prophet was, what one did, but I stood them up. They were at that time in their mid to late 30s. They had been married 17 years. And when I stood them up I saw barrenness over on top of her. It was like a film, a cloud, a haze over her.

SID: How did you know the film and the cloud, and the haze meant barrenness?

DENNY: Because I've done it for so many years. I knew what that meant. I knew what it symbolized. So I said, among other things, "And I rebuke the barrenness off of you. You will be fruitful and multiply and I will come back to this church one day and hold your babies, plural, in my arms." Well the church erupted because I had found out after the meeting they had been married 17 years. They had gone through several regiments of therapy for barrenness. All had failed. And they had resigned to the fact that they had to adopt children. So this prophet walks in, rebukes barrenness and predicts that she would have children. That night, went to bed, woke up the next morning and her body discharged from her female parts a mass. It came out of her body. She had never had a normal menstrual cycle ever. Within 24 hours after the prophecy the mass left her body. She began to have monthly cycles, and two and a half years later she conceived, carried the twin boys full term. She had a very difficult delivery, almost costing her her life. The boys had a very difficult delivery. The father and mother hung on to that prophesy, and now Nathan and Benjamin are four and a half years old, healthy. And I went back after that prophesy and I held those twin boys in my arms. So there is one, at least one Methodist church in Indiana that believes in prophesy.

SID: Out of curiosity, have you prayed for many people that have been barren that have had children?

DENNY: It is, curiously enough, it is the number one area of healing in my prophetic ministry. Women, couples all around the world have testified that they were healed and gave birth to children. Here's a great story. There was a little gal in Connecticut, a Korean-American woman, in a meeting where I prayed for barrenness, and she said, "Oh no one is praying for me. I'm never going to be healed." She left that meeting disappointed. In a dream that night, I appeared to her in a dream, prayed for her to be healed. She was healed and delivered a baby nine months later.

SID: Look into the camera and pray for people that are barren to have children.

DENNY: Father, in the name of Jesus, I rebuke barrenness over every couple viewing this broadcast today. I rebuke the spirit of barrenness, and I declare that you shall be fruitful and multiply in the name of Jesus.

SID: You know, every year God shows you key things that are going to happen. This year, God showed you 10 key things that were going to happen, and we have all 10 on our website for those that want to find out these words and study them in depth. But Denny, would you tell us a couple of the words that God showed you.

DENNY: In the order of their importance God gave 10 ten words, prophetic words for 2010. And the first one is “obey”. And I said, what’s that about? And He said that obedience for the believer, for this year, will be the key word to living in victory. In other words, I saw thousands of doors slamming. And I said, “Lord, what do these slamming doors mean?” And he said, “These are the doors that I’m gonna slam in the face of the enemy.” And I said, “How will you do that?” And He said, “If my children will only obey me.” In other words we don’t have to rebuke and cast out, and bind, and fast, and pray, and grunt and groan. The greatest weapon of our work here, Sid, is simple obedience to the will of God and the Word of God. And then he gave me a verse: “To obey is better than sacrifice and to hearken or to listen than to offer religious sacrifice.” The first word for the church for this year is “obey”.

SID: What’s the second word?

DENNY: The second word was as exciting. The second word He gave me was “secrets”. And He led me to Amos where the Bible says, “The Lord God does nothing unless He reveal His secret to his servants the prophets.” And the Lord spoke to me that for this year the prophets will begin to operate at a higher level of revelation than ever, and that secrets would begin to be revealed to them, both for individual and for churches. And that’s happened for me so far this year. I just came from a series of meetings and the pastor said, “You’ve never operated on this high a level of secrets.”

SID: Denny, you are called to demystify prophecy. I am called to demystify religion. It’s simple. There’s no other name given unto man in which we must have an encounter with God. We must be saved. And that’s the name of Jesus. I prayed his name out loud and my life has never been the same. There is so much power. His Hebrew name is Yeshua. His English name is Jesus. He knows all languages. If you will cry out in sincerity, “Yeshua, become real to me. Jesus, I want to know you. I’m sorry for my mistakes. I believe your blood washes all my mistakes away. I ask you to come inside of me. I ask you to be my Lord. I need your peace. I need to know you, God.” Say that now out loud. He’s waiting for you. He loves you. Yes.
