

SID: Have you ever wondered what the first Jewish believers in the Messiah had that allowed them to walk in such extraordinary miracles? My guest will reveal exactly what it was and how it was hijacked and how we can get it back. Next on this edition of *It's Supernatural*.

*Can ancient secrets of the supernatural be rediscovered? Do angels exist? Is there life after death? Are healing miracles real? Can you get supernatural help from another dimension? Has the future been written in advance? **Sid Roth has spent 30 years researching the strange world of the supernatural. Join Sid on this edition of It's Supernatural.***

SID: Hello. **Sid Roth here.** Welcome to my world where it's naturally supernatural. But you know, in order for it to be naturally supernatural we have to have everything that God has intended for us. The first congregation of believers, they had it. But as time went on many have lost it today. You see, the first believers in the Messiah went through the door of the fulfillment of Pentecost and tongues of fire came upon them, and they spoke in languages they had never been taught. **Glenn Arekion**, just to whet their appetite, tell me two or three benefits from praying in a language you've never been taught, a supernatural language from your spirit, not from your mind, that you have never been instructed.

GLENN: Well first of all, tongues would bring treasure out of you. The Bible says "We've got treasure in earthen vessels". What's the point of having treasure if you can't tap into it? When you pray in supernatural language you will tap into this treasure and make your life better. Secondly, when you speak in supernatural language the Scripture says, Paul said that "we are speaking to God directly." We're not speaking to man. We're speaking to God. How many people all over the world would like to have an audience with God, would like to talk to God, but don't know how to talk to God? And here we have this great privilege of talking directly to God in the Throne Room when we pray supernatural language. And thirdly, when we pray in supernatural language we are strengthening our spirit man with the might of God, the power of God, and that's what the church needs today. That's what preachers need today. We need the power of God, the anointing of God to change this world.

SID: Okay. At age 14 you had a relationship with God. Your bedroom was like this sanctuary and you would pray hours and hours in supernatural language, and listen to worship music. Do you remember those days?

GLENN: Yes sir. Still do today. And when I was 14 years old I would pray and pray in that supernatural language called Tongues. I would pray everyday, all hours of the day, especially if there was no school, I would pray all night long, all day long. And my mom and my brothers loved to come in my room because they would say it had a peaceful environment.

SID: You know, I could understand that. It really was your sanctuary. But you had a relative that spent the night in your room and she was not a believer in the Messiah. What happened to her?

GLENN: Well she was visiting from Paris and my mother told me and said, "Well Glenn, you know, we got a visitor, so you're going to have spend the night in a different room and let your cousin have this room." And we did not know that she was demon-possessed. I didn't know that she wasn't saved. But about two o'clock in the morning she ran out of that room screaming,

yelling, "I can't sleep in that room! I can't sleep in that room!" And she was manifesting, you know, going crazy just because she couldn't sleep in that room. And in that room I was always praying supernatural presence, God's presence was always there, and when there is demons and there's darkness, darkness cannot stay in the presence of God.

SID: So therefore, if you have the presence of God in your room no evil can even enter there. No evil would be dumb enough to want to enter there.

GLENN: That is true. Because when you're praying in supernatural language you are charging the atmosphere with the anointing of God, with the presence of God, and with the power of God.

SID: Listen, when he prayed in the supernatural language he was prophesying his future because he heard something about his future wife. Tell me about that.

GLENN: When I was a teenager I knew I was supposed to be in the ministry and I didn't want to have girlfriends after girlfriends. I wanted to know who my wife is. And I would be praying about it. And this man of God came and told me and said, "God says to you don't worry about your wife." I'm thinking to myself, I ain't worried. Lord, just tell me who she is. I'll just be fine." And I went to bed like I do every night praying in the spirit. And as I fell asleep praying in the spirit I had a dream, and in that dream I saw myself at the altar about to get married. And I looked back. I could hear the bridal music and I saw this girl coming in, but she had a veil on her face. I was like, take it off so I can see who you are. And she came and stood next to me. And as she stood next to me I heard the audible voice of God, "Your wife's name will be called Anna." So right there and then I just knew I wouldn't have to go look for Peggy Sue or anybody else, or Elizabeth. My wife's name would be Anna. And when I met my wife, I met her in church, I saw this girl. I said, "What's your name?" She said, "My name is Roseanna." I said, "Well that's close enough." But when we opened a passport, on her birth certificate her name is Anna Rose Elizabeth. God never made a mistake and he never makes mistakes.

SID: I'm wondering when you're going to sleep praying in supernatural languages I believe if you've been doing this enough the whole time you're sleeping you're praying in supernatural languages.

GLENN: Sure, 'cause your spirit never sleeps. Your body needs rest but your spirit never sleeps, and you are always in constant communion and communication with God, and that is what praying in supernatural language does. It's your development of your partnership and communion with the Holy Spirit.

SID: Now God knows what's going to happen in your future.

GLENN: Yes He does.

SID: So therefore if you're praying a supernatural prayer from your spirit that is hooked with God's spirit that knows everything before your problem happens you've already prayed it through.

GLENN: Yes.

SID: So you really can't worry about anything if you know you've been praying perfect prayers.

GLENN: That's right because when you're praying in supernatural language you're praying the perfect will of God. The Scripture says when we pray in the supernatural language we're praying mysteries, [Latin] *Mysterium*, meaning "the secret plan", meaning it's a plan hidden from the devil, but it is hidden for the saints.

SID: I like that. In other words, when you're praying in English the devil knows what you're praying.

GLENN: Sure.

SID: When you're praying in supernatural tongues—

GLENN: He knows what you're doing but he can't sabotage it.

SID: I like that. You're going to find out about supernatural protection when we come. This is so mandatory for the times that we're living in. Don't go away.

We'll be right back to It's Supernatural.

We now return to It's Supernatural.

Man: Speaking in an unknown tongue by being filled with the Holy Spirit has been one of the greatest experiences of my life.

SID: Hello. **Sid Roth here with Glenn Arekion.** Glenn, your life, my life and your life if you pray in supernatural languages has probably been spared so many times because the devil is planning an attack against you. God knows about it. You're praying against the devil. The devil doesn't even know you're praying against him because he can't understand the supernatural language. You're praying in perfect faith because, praise God, you can't understand it. So there's nothing in as perfect a pray as you can pray. Tell me about the time you had a supernatural intervention of God in Ghana.

GLENN: Well this was my first, I was 21 years old. It was my missionary trip on mainland Africa. I went to Ivory Coast and I was preaching in Abidjan. And on my way back I had to be in transit in Ghana. And so I took the plane from Abidjan to Accra. When I got to Accra the immigration officer who met us at the bottom of stair said, "Everybody on that plane is not going to London. You're all going back to Abidjan because you are all illegal immigrants." And I said, "Now hold it, hold it."

SID: You weren't illegal.

GLENN: No. I said, "First of all, I'm not Ivorian. I'm a British citizen. I'm going back to London." He said, "No. Everybody on that plane is going back to Ivory Coast." I said, "Where do I go? I don't know anybody over there." He said, "We'll take you to jail." When I heard the word "jail" I was all excited. I mean, I was like, no, I'm not going to jail.

SID: I'm sure.

GLENN: And this man was rude, and this man was like, "No, you're not going to London." And by that time he said, "Beside, the plane, your connection to London has already left. Your plane is already gone." Now I knew in my mind if something supernatural didn't happen I'm going to jail somewhere in Africa, and I don't want to be in jail in Africa. So I didn't care and I began to pray in supernatural language. I can pray. And I prayed out loud and I didn't care because I wanted to get out of Accra to go back London. And as I prayed I heard the voice of the Lord. He said, "See that man over there? I want you to go and talk to that man." As I was heading towards that man that other immigration officer said, "Where are you going?" I said, "I'm not talking to you. I want to see that man." He said, "No. Where are you going?" I said, "I'm not talking to you. I want to see that man." And I saw that man. I said, "Sir, I supposed to be going to London and they want to deport me back to Ivory Coast." He came back a half hour later with a brand new ticket on a different airline, which I didn't pay for, and took me back home to London.

SID: Could that have ever happened if you didn't pray mysteries of the Spirit?

GLENN: First of all, if I didn't pray in that supernatural language I would not know what to do. I would have panicked and be afraid, and find myself in a jail. But the Scriptures says, "With an unknown tongue He will speak to His people." So when I prayed in unknown language, supernatural language, I heard the voice of the Lord to tell me what to do. Supernatural language will get you out of any problem that you may find yourself in.

SID: Do you know what's been hidden because it's not emphasized? If you study the various moves of God's spirit throughout history you'll find the secret of these great men and women's power was speaking in supernatural languages. Tell me about some pillars of the church.

GLENN: John G. Lake, who had a great healing ministry, he said the making of his ministry is praying in supernatural language, speaking the language that God has given to him. Smith Wigglesworth, who was from the United Kingdom, who was an uneducated plumber, shy, timid was transformed into the apostle of faith, into the apostle of miracles and healings simply by praying in supernatural language. People like William J. Seymour, who brought about revival, the Azusa Street Revival, they all prayed in supernatural language. Our churches will be changed. Our cities will be changed. Our nation will change if the churches and believers begin to pray in supernatural language.

SID: Tell me about this Indiana pastor's wife. This pastor had been sitting under your teaching and just so motivated to pray in supernatural languages, and she dies. Was it in a service?

GLENN: No, she died at home. And she wasn't feeling well during the day. She knew it was a demonic attack. She wasn't feeling well. Well she got up and as she was heading towards the

bathroom she said she felt something hit her, and when that thing hit her she fell down and collapsed. And her husband, who's a pastor who only speaks in supernatural language, was put on the spot to teach to pray even more, saw her collapse on the floor and all the color drained out of her and gurgled her last breath.

Pastor: She's not breathing. My wife's not breathing.

GLENN: The faith of God rose on the inside of him and he already understood by the teaching of God's word that he could pray supernatural language. So he began to pray and blast in supernatural language and she came back life. She was resurrected.

SID: Resurrection of the dead, I mean, if that's not a reason to pray in supernatural language. When we come back Glenn is going to show you the secret from Scripture of why the first believers in the Messiah had such awesome power and it's such an amazing revelation. In the English translations of the Bible, most have missed it. But in the Greek translation of this verse he's going to show you, light bulbs are going to go on. Don't go away. We'll be right back after this word.

We'll be right back to It's Supernatural.

We now return to It's Supernatural.

Man: Praying in the Holy Ghost, praying in the Spirit makes a difference. You will more clearly hear God's voice. You will know what to do and He will show up with His glory.

SID: Hello. **Sid Roth here with Glenn Arekion.** And Glenn, when you shared the Greek translation of one particular verse for me, I then understood the power of the first church and I then understood how it was hijacked. Explain that.

GLENN: Well in Acts, Chapter 6, when the church was growing and it was murmuring, and they wanted the apostles to do all kinds of different works, the apostles said this: "We will give ourselves continually to prayer and to the ministry of the Word." But the Greek text says it this way: "We will give ourselves to THE prayer." The word "the" implies definite article known to those who were saying it. So the THE prayer that was prayed in the New Testament referred to praying in supernatural language. And see how the apostles said praying in the supernatural was so important that they would give themselves to THE prayer. And today, the church has moved away from THE prayer. We pray all kinds of prayer except THE prayer.

SID: Well you know, the word that speaks to me just as loud in that verse where Paul the Apostle said, "I pray in tongues in supernatural languages more than anyone." But what they said is they were you going to pray continually. If that word means what it means in English I don't think there's any way you can pray continually unless you pray THE prayer.

GLENN: Supernatural language.

SID: I mean, when I listen to you teach it causes me to not be convicted, but causes me to desire to pray THE prayer.

GLENN: Yeah. Well if we go back to Paul, like you mentioned, Paul says, "I pray in tongues or supernatural language more than you all." Then the Scripture says in the Book of Acts 19 that how God brought special miracles through the hands of Paul. How? Because he prayed in supernatural language. Supernatural language is the release of God's power. There were miracles there. God did unusual miracles. The Greek text says "wonder works" and that's what we want in the church. We want to see unusual miracles, wonder works, extraordinary miracles, outstanding miracles that even sinners cannot deny. Well how do we do that? We've got to be tapping into the supernatural. How do you tap in the supernatural? By praying the language of God, supernatural language.

SID: People get ideas and inventions from God.

GLENN: Yes.

SID: Tell me about someone.

GLENN: Well George Washington Carver. He was a man who knew the voice of God, who knew the voice of the Holy Spirit. See, when you're praying in supernatural language you are tapping into the mind of God, tapping into the creativity of God. And in a place where he was not supposed to prosper God gave him inventions. He invented so many things out of peanuts. And who would have thought that you can get 300 stuff out of peanuts? But by him simply knowing the voice of the Holy Spirit, speaking in supernatural language, believing in God, talking to God, God gave him ideas to bring in inventions about peanuts. It is all about walking in the power of God. Paul says, "When I came to you I didn't come with impassable words of man's wisdom, but I came in the demonstration of the spirit and of power." And there is a connection between the supernatural extraordinary miracles and praying in supernatural language. You cannot separate the healing ministry from supernatural language. The moment you begin to pray in supernatural language it opens you up to the nine gifts of the spirit. It opens you up.

SID: You know what I notice? When I'm around you I can feel the presence of God. Is it because you spend so much time developing your spirit praying in supernatural language?

GLENN: Yes. When you spend time praying in the Spirit you carry the Anointing. You become a vessel that carries that anointing of God.

SID: But you know anyone can do that.

GLENN: Anybody.

SID: Anyone can do that. I believe the difference between these great men and women of God that Glenn was talking about was their prayer life, praying continually in THE prayer,

supernatural languages. I believe that of all the people you just mentioned and many others never would have had the ministry they had if they didn't pray in tongues.

GLENN: Because if you don't pray in supernatural language you don't have a supernatural edge. Praying in unknown tongues or supernatural language gives you an edge over the natural because it makes you supernatural. So that's the reason why we must pray in supernatural language.

SID: You know what I believe? I believe that if you will pray in your supernatural language God is going to speak through you to some people right now. Would you do that?

GLENN: Yes. Halleluiah. [supernatural language] Halleluiah. Right now there's somebody watching me and you're blind in one eye. And God is saying to right now it's open. It's open. There's somebody right now that's got lung cancer and the doctor has given up on you and told you you've only got weeks to live. You don't have long and you've made preparation for your funeral. And God is saying you are healed right now. Supernatural healing power of God is going through your body right now and healing you from that lung cancer.

SID: You know what's so wonderful, Glenn, not that you were able to be used by God right now, but that everyone that is watching us right now can be used by God as much as Glenn is used by God, as much as I am used by God. But Glenn, the flesh doesn't like praying supernatural languages.

GLENN: No.

SID: But what happens when you pray for hours, which you do, and you eventually get into the spirit realm? What is that like? Explain that.

GLENN: Everything becomes easy. There's nothing impossible. The moment you begin to get into the realm of the Spirit where God is you begin to think like God and you understand that God is omnipotent, that God is all powerful. And once you begin to be in the same room and same realm with Him there's nothing that you can't do. Whatever dream, whatever vision God has given you becomes easy. You don't know how you're going to do it, but you know it's going to happen. Why? Because you have access to the power of God and everything which is complicated becomes easy, is no longer a complicated issue because you have the mind of Christ.

SID: If you would like to be filled with God's Holy Spirit right now and speak in supernatural languages you are a candidate because God's not irrespective of persons as long as your sins are forgiven, you've repented of your sins and you have asked Jesus to live inside of you and be your Lord. If you have done that and meant that then you could just lift your holy hands, because they're under the blood of Jesus, you could lift your holy hands to God right now and you could say, "Jesus, fill me with your Holy Spirit. Fill me, Lord." And then by faith you could start speaking your language right this second. You say, "I don't know what to say." Perfect. It's not from your mind. It's from your spirit. But you cannot speak in English without making sounds. If you by faith will begin to tell God how much you love Him, that's what happens when you pray in supernatural languages, you're telling God how much you love Him. Remember, you've always

prayed in the name of Jesus to be filled with the Holy Spirit. And Jesus is going to give you the words if you will just speak it out. Do that right now. [supernatural language]. If you don't move your mouth no one else will do it. If you don't speak right now, speak in your supernatural language. [supernatural language].
