

[music]

*Is there a supernatural dimension, a world beyond the one we know? Is there life after death? Do angels exist? Can our dreams contain messages from Heaven? Can we tap into ancient secrets of the supernatural? Are healing miracles real? Sid Roth has spent over 35 years researching the strange world of the supernatural. Join Sid for this edition of **It's Supernatural**.*

**SID:** Hello. Sid Roth here. Welcome to my world where it's naturally supernatural. There is nothing, nothing this world has to offer compared to having intimacy with God, to having the assurance that He knows your name and that you can hear His voice, and you can accomplish your purpose on this Earth. Heaven must be the most wonderful place. My Jewish mother used to say that. She's in Heaven right now. My guest died from a medical viewpoint and went to Heaven, and he went to a room called the body parts room. Now these body parts are waiting for us. And after he learned how this operates people are getting body parts. Next on **It's Supernatural**.

[applause]

**SID:** Hello. Sid Roth here with Dr. Gary Wood. And Gary, we're happy today. But in 1966, you're just a young man. You're driving with your sister and you have a crash. What is the first thing you remember after the impact?

**GARY:** Well Sid, there was a sharp searing pain that went through my upper facial features, and I felt a crushing in my larynx. And then I was just relieved of all pain. Dying is just like taking your clothes off and just laying them aside. I stepped out of this body, this earth suit and then was lifted above the top of my car, and my whole life passed before my eyes in just an instant. Then I was caught up in a swirling massive funnel shaped cloud that grew wider and very bright, but not as bright as the lights that are shining here in the studio, in my face. Angels took me underneath their wings.

**SID:** Now while this is going on, eventually a paramedic gets to you.

**GARY:** Yes.

**SID:** What did the paramedic find out?

**GARY:** They pronounced me dead at the scene of the accident. I've learned that I was dead for over 61 minutes.

**SID:** Okay. Now you're caught up in the air. There is no pain. Was it a good feeling?

**GARY:** It was ecstasy. It was peaceful, calm, tranquility. Then angels began to sing, "Worthy is the lamb that was slain from the foundation of the world." Then this cloud opened up and I saw this gigantic golden satellite suspended in space that the Bible calls Heaven. It had 12 foundations, Sid. The names of the 12 disciples were inscribed upon them. It had 12 gates of pearl, and the gates were 500 miles in width. I started walking up a green grassy hill. The grass

came all the way through my feet, yet there were no indentions where I previously stepped. There were diamonds on the grass. There was an angel standing in front of one of those gates of pearl, and he was at least, the angel was at least 70 feet tall.

**SID:** Did you say, did you hear that? Seventy feet tall. That's tall.

**GARY:** That's tall. He had a sword. He had beautiful gold spun hair. And there was an angel inside of the city that was holding some books. There was some exchange between these two angels and then I was allowed access into the city. And I have to say that I was allowed access into the city because I would see Jesus Christ as my personal born savior.

**SID:** Who was the first person that you met besides the angel?

**GARY:** Well it was my best friend in high school, and he had been killed in an automobile accident. His head was decapitated. I recognized him immediately, which answers in my mind, will we know one another when we're in Heaven? And certainly we will. Then my friend began to take me on the tour of the place called Heaven.

**SID:** Tell me about the library. That intrigues me.

**GARY:** I saw volumes and volumes of books. There's books of prayer requests, our spiritual growth in the Lord and souls that we have won the Lord Jesus Christ, because that's the dearest thing to the heart of God.

**SID:** So let me see if I got this straight. There's a book and it has the names of the people that say you have won to the Lord. Did you look in that book?

**GARY:** I did and I saw people that I had led to the Lord even up to that particular time. And then the most exciting thing, Sid, was to see the Lamb's Book of Life. And it's just covered in wool. It's white wool. And I looked into the Lamb's Book of Life, and I saw my name written in the Lamb's Book of Life, and it said, "Paid in full by the precious red blood of Jesus." So I had a right to be there. And I saw it happen when someone received Jesus as their savior. What transpires is there's always a welcoming committee when you come to Heaven. There's always celebration and excitement. And I saw a man receive Jesus as Lord and Savior of his life. And there were people watching and looking, sitting like in bleachers. It's recorded in Hebrews, Chapter 12. They're not looking at all the bad things in life. They're looking at the good things. And they're pulling for us. They're cheering us. They've in essence said, "We've run our race, you run your race."

**SID:** Wait a second. I feel something right now. I feel, I believe the presence of angels. You have an angel that accompanies you. Is that angel here right now?

**GARY:** He is here right now.

**SID:** Why is he here?

**GARY:** Well because I'm a man on a mission with a message, Sid, directly from Heaven.

**SID:** Hold that thought. We'll be right back after this.

[music]

*We'll be right back to **It's Supernatural***

[music]

*We now return to **It's Supernatural**.*

**SID:** Hello Sid Roth here with Gary Wood. Dr. Wood, I am so intrigued by the body parts room. Tell me what you saw.

**GARY:** About 500 yards from The Throne Room of God, my friend took me, and I was captivated by the sign on the outside that said, "Unclaimed Blessings". When I opened the door, to my astonishment I saw legs hanging there from the wall.

**SID:** Real legs?

**GARY:** Real legs. Every part of one's anatomy was there in that room. And people ask me, why do you need a place like that? Because God has a spare part room. God has a miracle. And I saw what happened, Sid, when people on the earth pray. The prayers go up and Jesus receives that prayer. His commission sends out an angel. The angel goes and takes it in the spare part room, brings it down immediately. Now sometimes it's instantaneous. Sometimes it's like Daniel, who had to wait 21 days to receive his manifestation. But here's what I saw. I saw people receive their miracle. Then on the other hand, I saw the angel bringing the miracle to the person and the person would say something like this, "Well I guess it's just not my time."

**SID:** But wait a second. Why would they say that if the angel brought it?

**GARY:** Well they didn't see it or they may not have been prepared for that, or they may have been taught that God doesn't perform miracles today.

**SID:** I've met a lot of people that have gone to Heaven, and they have actually witnessed the spiritual warfare of the angel trying to bring the answer in prayer and demons interfering.

**GARY:** Well that's exactly what I was seeing. Demonic forces didn't want the miracle to come to the person. But when the person would lift up their hands, and the Lord really emphasized this to me, Sid, to say in the last six months, and this is where we've seen an increase in miracles. That when we pray for people who lift up their hands and say, "I believe, I receive." Because what I saw was—

**SID:** But that's simple. That's Mark 11:23. It's scripture.

**GARY:** It is.

**SID:** It's so simple.

**GARY:** It is. Faith is simple. Faith is not complex. Faith is not difficult. Faith is just believing the Word of God and acting like it's true.

**SID:** Alright, very briefly, tell me about one person that you prayed for or that heard your story, and got a body part.

**GARY:** Well there's a lady named Stacy, and she's from Kokomo, Indiana, and she needing new lungs. She's in the medical profession, and she had severe allergies from a young age. And she read that part, heard that part in a testimony that I gave, and she said, "I want new lungs." And so she prayed and she received, and she's totally healed of asthma. And now she tells her patients, "I understand how you were, but now I'm completely healed." And it opens up the door for her to share her story as to how God gave her new body parts.

**SID:** Why did you come back?

**GARY:** I'm on assignment. I was sent back to tell people that Heaven is real. There's a song to sing. There's a missionary journey to take. There's a book to write. You're unique in purpose for this Earth. No one can do what you are called and commissioned to do here on the earth. Jesus told me to give a specific message. He said there would be a spirit of restoration that would prevail throughout the land. He said that there would be a teaching and emphasis on prayer, and he told me to always pray, it is written, if I possibly could then I could triumphantly say, it is finished. And number three, he said there would be a great outburst of miracles. And he said, "Tell my people, never to buy into the condemnation of the devil if they're unworthy." He said, "You're worthy because you've been redeemed by the precious blood of the lamb."

[applause]

**SID:** Yeah. That is worth applauding. I can tell you this. But he had a sister that didn't even believe in miracles. But when he died she was crying to God in a name that is above even death, in the name of Jesus. And what happened?

**GARY:** Well she began to cry out when my friend was taking me on this tour in Heaven. As she began to cry out, he said to me, "You've got to go back. She's using that name." And so I just shot right back down into my body. They noticed life signs. They rushed me to the hospital to stabilize me and then I was told the next day the severity of the accident.

**SID:** I've got a picture here of the X-ray. Your nose was torn off. Your teeth were knocked out. Your jaw was broken. Your neck was broken. You had severed vocal chords, crushed larynx. That's kind of an understatement. And you're hearing a song that many of you know, "Jesus Touched Me."

**GARY:** Yes.

**SID:** "He Touched Me."

**GARY:** Yes.

**SID:** And what happened?

**GARY:** Well when I heard that song Jesus walked into my hospital room, and I looked at him.

**SID:** He actually walked in.

**GARY:** He actually walked in, Sid.

**SID:** How would you like Jesus to walk into your bedroom? How would you like Jesus to walk into your bedroom?

[applause]

**GARY:** And Sid, this is humorous to me, but people often ask me this question. Is Jesus Jewish? Yes he is. When you die you're not going to lose your ethnic origin. Jesus had olive skin. I saw where they drove the nails in his hands. I saw where they placed the crown of thorns on his head. He had beautiful blue eyes. Jews from the tribe of David are known to have blue eyes. And he just walked over, put his hands on my throat. He smiled. And all the time I'm hearing the song, "He Touched Me, He Touched Me". And then he just walked out of the room. Now he didn't come in through the door. He didn't leave by the door. He is the door. And the little nurse that had been attending me—

**SID:** But wait a second. You have to get this clear. His vocal chords are cut. His larynx is crushed. You don't have to be a doctor to understand that means you cannot speak. He was a singer. He has a doctorate, I believe in music. He would never sing again. He would never speak a word again. The little nurse comes in and what happens?

**GARY:** Well as she walked in, she said, "Good morning Mr. Wood. How are you this morning?" And she was just trying to cheer me up. And I threw my hands up and said, "Praise God, I've been healed."

[applause]

**SID:** Did you hear that?

**GARY:** And she dropped the tray, Sid, needless to say. And the doctors ran out, or she ran out and got the doctors. The doctors came in and they said, "You can't speak, you can't talk." But I got a second opinion. Dr. Jesus said I could, and I've been doing it everyday of my life ever since.

**SID:** What did the voice therapist say?

**GARY:** She said it's absolutely impossible for, number one, for me to even be alive with a crushed larynx, because with a crushed larynx your food will go directly into your lungs, and Sid, instead of your stomach. And so you'll drown to death essentially, or you'll suffocate.

**SID:** And do you know what the thing that is so amazing? He can't talk, by the way, I want you to know this, medically speaking, because his vocal chord is still cut. His larynx is still crushed. It's a double miracle if you look at it that way. But when he sings, "He Touched Me," people get healed. And he told me God told him many of you are going to be healed in this next segment. And I got proof from Heaven there is an angel on this set, and I'm doing all I can to sit still. But I'll be back in a minute.

[music]

*We'll be right back to **It's Supernatural***

[pause]

[music]

*We now return to **It's Supernatural**.*

**SID:** Hello Sid Roth here with Dr. Gary Wood. Gary, it is getting so much power is upon this set right now. And the devil tries to knock it out. December of last year, just a few months back, you had cancer. What type of cancer and what did the doctor say?

**GARY:** Well it was an acute attack of pancreatitis, so it was pancreatic cancer.

**SID:** Is there much hope for pancreatic cancer?

**GARY:** Not really. I started off with they gave me a limited time to survive. And it started off with morphine, dripped morphine every five hours, then dropped to two hours and then every 15 minutes as I could just pump it into my body to relieve the pain. What I did, Sid, I didn't do anything different.

**SID:** Were you fearful that this was your time leave?

**GARY:** Absolutely not.

**SID:** Why?

**GARY:** Because I'm a man on a mission with a story.

**SID:** Okay. Well listen, I've got a story for you right now, and it's true. If you have a life threatening disease and there's a purpose for your life, and you have not fulfilled that purpose no devil in Hell can kick you out.

**GARY:** That's it. That's what I've learned, Sid. God's plan for your life is greater than the devil's plan to destroy you. And I stayed in the Word, that word that I had in my heart, that I might not sin against thee. I stayed in faith. Faith comes by hearing and hearing by the Word of God. Now the nurse, the doctors, they all walked in. They all said, Mr. Wood, you have cancer. They gave the negative report. I chose to believe God's word over that. And then I stayed in joy. And most important, I stayed in fellowship with fellow Christians. I went to my home church and had my pastor, and my church, and all the believers there lay their hands upon me, and to pray the prayer of faith and anoint me with oil. And the moment they did I knew that I knew that I was healed. I walked back to my seat, turned to my wife and I said, "It's done. It's done."

**SID:** You know, that's you. You've been to Heaven. You're maybe special. But I know better. You serve a special God.

**GARY:** Yes.

**SID:** That's what makes him special and that's what makes you special. We serve a special God. And Gary said something that was so profound. He said that Jesus told him about when you're prayed for, believe. Explain that exactly.

**GARY:** Well he said, whenever you're prayed for, immediately declare with your mouth, I believe, I receive. And Sid, ever since I've started urging people to say that, to say, I believe, I receive, I've seen an increase in miracles.

**SID:** Tell me about that person from Korea, very briefly.

**GARY:** Well I was in a church service and there were three people there from Korean origin. I walked back to the young man and he said, I introduced myself, and he said, "Oh, I know who you are." He said, "You're very, very popular in South Korea." And I went, oh yeah, sure, something like that, you know. But then I discovered that they watched *It's Supernatural* with you, and they saw me on a previous program. And they got on the website for 21 hours to be in the service to bring their mother who was dying of terminal cancer, and got [unintelligible] in Jesus' name.

**SID:** Okay. Here's what's going to happen right now. Gary is going to release words of knowledge and pray for you, and you are to say, just before he prays, "I believe I have already received. I believe, I receive" because you're instructed to do that in Mark 11:23.

**GARY:** Diverticulitis is being healed right now and rotator cuff problem in your shoulder is being healed. Eczema, this rash that's all over your body. Acid reflux is being touched and healed. People are being healed, Sid, in their joints right now and it's like they're being lubricated and they were very stiff. A thyroid problem is being touched and being healed. You know, I heard the song, "He Touched Me, He Touched Me".

**SID:** I know that as you sing this, I know that as he's sings this, if you will believe you will receive.

**GARY:** [singing] Oh he touched me. [talking] Join me audience. [singing] I know the joy that rubs my soul. Something happened. [talking] It's happening right now. [singing] And now I know. He touched me and made me whole.

**SID:** There is such a presence of God in this studio right now. Gary, God spoke to you about the importance of living a holy life. We don't hear much about that. Why is that even so important right now?

**GARY:** Well the Bible, of course the Word of God says, "Without holiness no man will see God." So it's very important. But He said, "Those that will walk in holiness in this last day will be rewarded for that and walk in the blessings of God." Those that choose not to are going to be exposed. And it's time to discard and abandon anything that's hindering our race with God. Throw it off and run the race to fulfillment, so we can hear Jesus say, well done, good and faithful servant.

**SID:** Are you walking in holiness? Are you looking at pornography? Are you involved in the new age, the occult? Are you involved in sex outside of marriage? Are you involved in addictions of any kind? Are you involved in homosexuality? Are you involved in lying? Look, you know if you're involved in sin. Repent means to tell God you're sorry and change your action, and turn from your wicked ways, and ask Him for the power to overcome. You can't do it yourself. But if you will do your part, if you will repent and believe the blood of Jesus has washed away your sins then God is going to do His part and give you the ability to walk a holy life and watch the blessings that you're about ready to walk into.

[pause]  
[music]

**SID:** Next week on *It's Supernatural*. My next guest said next year will either be the best year of your life or the worst year of your life, and he has found ancient biblical mysteries when implemented on a practical basis result in a supernatural increase that will cause you to be on the right side of the ledger.

[music]
