

[music]

SID: Can supernatural sound and music catapult you into heavenly realms where all things are possible? My guest has hit this zone. Next on *It's Supernatural*.

*Is there a supernatural dimension, a world beyond the one we know? Is there life after death? Do angels exist? Can our dreams contain messages from Heaven? Can we tap into ancient secrets of the supernatural? Are healing miracles real? Sid Roth has spent over 35 years researching the strange world of the supernatural. Join Sid for this edition of **It's Supernatural**.*

SID: Hello. Sid Roth here. Welcome to my world where it's naturally supernatural. My guest Janie Duvall is behind the scenes normally. She's been my producer for how long, Janie?

JANIE: Almost, you reminded me, a quarter of a century.

SID: Isn't that hard to believe? Where did the time go?

JANIE: I don't know, but we're living in the supernatural time zone and I'm getting younger everyday.

SID: I believe that. But Janie, I don't know if you know this, and I don't know if you know this. But when I became a new believer in the Messiah I was exposed to the Katherine Kuhlman Ministry, and I thought that was normal because the book, the Bible said that's what we're supposed to do. And so I started praying for the sick, and I prayed, Janie, for hundreds of people. No one, not one—

JANIE: Boy, you're bold.

SID: Zero got healed. In fact, if you won't tell anyone, I even prayed for someone to die in my healing line. And then worse than that, I went to some meetings by Kenneth Hagin, who is now in Heaven, and I learned about faith, and I was so excited. And I get home and a close family member develops a horrible disease. And I pray and I'm so sure this person is going to be healed, and they weren't healed. I don't even know why I persevered. But I guess there's just something in my DNA that I persevered, and there's something that God honors for perseverance. But I wish that what you're learning now I have known. I didn't have a mentor. I didn't have people that understood what we understand today. But I can tell you this. God has honored the perseverance, and you are going to learn things in this particular supernatural show that perhaps you've never heard before.

JANIE: You've interviewed a lot of guests on healing. You've seen a lot of healings. You've heard every key from faith to worship, to the anointing. I want to know what's the biggest key you've seen now for people to be healed?

SID: Hands down, I can tell you. I'm positive this is the most important thing, if you ask me to say one thing that I have learned about healing, you know the Amplified Bible in First Corinthians, the 14th Chapter, the first verse says, "Make this your great quest. Make this your

great purpose in life. Make this the most important thing." And just before that it explains love. But it's not love like most people think, Janie. It's not Hollywood love. It's not even love for a mother for a child, which is a great love, but it's not that. It's not even love of a wife for a husband. It is agape, which is the love of God. And this is what our Messiah said, that people, "This is my commandment that you must," I think commandment is a pretty strong word from the Messiah.

JANIE: Absolutely.

SID: "This is my commandment that you must love one another." And then he goes so far as to say what kind of love. He says, "As I have loved you." Well you know what he did for us. Now that's why we're to make this our great quest, our great purpose in life. And this agape love, you can't understand because it's God's love, which is a higher level than human love, and we compare the human love to God's love, and you can't. You only need revelation. That's the only way you're going to know God's love. And the revelation is in 1st Corinthians, Chapter 13, and it describes love. It says, I believe it's verse 4 through 8, it says, and you know what I do, Janie? I personalize it. I think it's so important to personalize it.

JANIE: It is important.

SID: Rather than it says, "Love is patient," this is what I do. I say I am patient. Oy vey, sometimes I mess up royally, but I'm getting better. I am patient. But you know what? You can be patient, but can you be patient and kind? That's the God kind of love. I am patient and I am kind. I am not jealous or boastful, or proud, or rude. I do not demand my own way. I am not irritable and I keep no record of wrongs. Wow. Keep no record of wrongs. That sounds like God. But after all, it's God's love, you know. It gets more interesting here. I do not rejoice about injustice, but rejoice whenever the truth wins out. But here's the best part. Remember the perseverance I was talking about?

JANIE: Right.

SID: That is God's love. I never give up. You hear that? You hear that, devil? I never give up. No matter what you throw my way I never give up, because I know who wins and I'm in Him. But God's love never gives up. I never give up. Why? Because I have God's love in me. Why? Because you have God's love in you. How can I say that? Romans 5:5 says, "The love of God has been shed abroad in our hearts by the Holy Spirit." So everyone that's born from above has this supernatural love within them. But it's fruit and it must be developed. And I can tell you that I tried at least once a day to read this chapter, 1st Corinthians 13, verse 4 through 8, in this personal way. Now Janie, you are a musician and you come from a musical family. Tell me just briefly the study you've done in music.

JANIE: I went to the Aaron Copeland School of Music in New York City and I studied composition, orchestration.

SID: Okay. When we come back you have the most supernatural things that happen to you when you play music. I'd like to find out about it. Don't go away. Do you know why? It's wonderful

that Janie Duvall has supernatural things that happen to her when she composes music. But you are going to have wonderful supernatural things happen to you when you listen to her music. Be right back.

[music]

*We now return to **It's Supernatural**.*

SID: Hello. Sid Roth here with Janie Duval. And Janie, we were talking about something happens to you when compose music. Tell me about it.

JANIE: You know, I've been getting into a love soaking, waiting on the Lord presence type of music.

SID: Explain when you say "soaking", what do you mean?

JANIE: Well for me, you can sit there and soak. You're listening to music and you're just getting into God's presence. You're just focusing totally on Jesus on the throne, the throne room of God and you're in His presence. You're seated in heavenly places. And so you're just letting the Lord minister to you and you're actually becoming more like Him. When you talked about that love, fear leaves you. Anger leaves you. So no wonder you get healed. And for me, I love soaking. I love getting on the floor and just, God, filling me up with His presence.

SID: Well I personally, I sit in a nice comfortable chair. Whatever works. What I see it is, is like the parable of the five wise and the five foolish virgins, and the wise had oil, the foolish did not. This is what I believe, if you are wise, you are soaking in the oil of the Holy Spirit, and it's almost like you're being marinated in the Holy Spirit. I like that.

JANIE: And that's what happens. You just start getting totally changed. And when people have heard my music, I like to write a music that is like a movie, like a symphony. And the interesting thing was when I was composing music just recently and it was for people to be healed, for people to be absolutely changed, I actually heard an angel singing. And then another time, okay, it was only the piano playing. I only had a piano and all of a sudden in the room there were other instruments playing. But then, I haven't told you this either, I saw a vision of an angel playing an instrument at the throne room, and people were getting healed. Lives were absolutely changed. Every circumstance changed as people soaked in the Word of God, in the presence of His music. And another time in composing, just recently, I heard glass shatter. And so I ran out of the room.

SID: And what did that mean to you?

JANIE: I thought, what in the world is going on? So I ran out of the room, ran to my daughter and I said, what is going on here? She was looking at me like, what do you mean? The glass, all the glass shattering. I heard it even being swept up. This was going on for a while, while soaking in the music the Lord gave me.

SID: I know what it means. So I'm questioning you. Do you know what it means?

JANIE: It means absolute breakthrough.

SID: To you. But it means something else to me.

JANIE: I heard something else. What did you hear?

SID: Alright. There is a tradition when a Jewish person gets married, they take the wine glass, they each drink from the wine and then they put it on the floor and they smash the glass. It's the consummation of the wedding between the groom and the bride. That's what I'm hearing. What intimacy. I sense such a presence of God in the studio right now, that I want Janie to go to the music set and I'm going to go to the recording set. And get ready for a healing explosion in your life. You see, the water is stirring. An angel is stirring the water. And I have to tell you this. In eternity there is no time, not like this realm here. So when you pray, "by his stripes I was healed," and mean it to the best of your ability, and six months go and it hasn't manifested, and then you say, God, what's the matter? Am I Swiss cheese? You don't tell anyone else this, but inside you're saying, God, but you're telling God, God, how come I'm not being healed? Because there is no time. This is what God is hearing. I am healed. How come I'm not healed? I am healed. How come I'm not healed? No time, remember. Called double-minded. Without faith you can't please God. I believe that as this music and the Word is ministered to you, get ready for the healing waters to flow.

[music]

[pause]

[music]

*We now return to **It's Supernatural**.*

SID: Hello. Sid Roth here with Janie Duvall. And we're talking about the supernatural quality that God puts on music, and that's what you've just heard.

JANIE: I've actually seen Jesus conducting a symphony and people, when you're joining in with worship, when you're reading his word, which is actually worship, too, you're actually then part of that symphony. And that's why you get healed. That's why your life changes. Every promise comes to pass.

SID: When people sit under your music, you recently had it at our prayer meeting, what happened?

JANIE: I've had people say that they've felt angels. And just today, someone had said to me they actually felt being lifted up into the throne room, being seated in heavenly places. And you know, as it is on Earth as it is in Heaven, when you're seated up there you can get every promise of God.

SID: Well you know, I was thinking about the real purpose for our television show. It says in Scripture, "He who wins souls is wise." And I have found the law of evangelism. You see, there's laws of healing, there's laws of prosperity and they're all proclaimed very boldly and rightfully so. But who's going to proclaim the law of evangelism? You see, when God wanted to reach the world, he started with the first Jew, Abraham. When Jesus wanted to reach the world, he said, "I go only to the lost sheep of the House of Israel." And when Paul wanted to reach the world he said, "I go to the Jew first." It says, if the Jew's commission was to be a light to the nations, or evangelize the gentiles, the gentiles' commission is the reverse, the flipside. Romans 11:11: "Salvation has come to the gentile to provoke the Jew to jealousy." And when these two spiritual DNAs come together, not one better than the other, but an incomplete, it says in Ephesians that the reason Jesus came was to break down the middle wall of separation to form one new man, something that never existed before, the Jew and the gentile, one in Messiah, one in Yeshua. And then Ephesians 2 goes on to say, "This makes a dwelling place of God by His spirit. It makes a complete dwelling place of God by His spirit." And we're coming into the next move of God's spirit, and I prophesy to you that those that do not know God's understand for the Jew and the Nation of Israel will not enter this next move. And I say to you, as you reach out to Jewish people it opens up a greater supernatural door to reach gentiles than if you go to gentiles first. That's why I say to you, and I boldly proclaim to you the Jewish person that has crossed your path is not an accident. God wants you to demonstrate His kingdom through signs and wonders, because the Jew requires a sign, and love that Jewish person to Jesus. Janie, if you would go to the music set right now, get ready for your faith to soar to the heavens.

[music]

SID: Faith is always now. It's not yesterday. It's not tomorrow. It's now. Why? Because if you reverse the letters of NOW, N-O-W, what do you get? W-O-N, because the victory, the battle as already been won. Faith is now because it's won for us by Jesus. It is the children's bread. Get it?

[pause]

[music]

SID: Next week on It's Supernatural. My guest has such an anointing, such a presence on her life that the spiritual scales will literally come off of your eyes, and many of you will see angels for the first time.
